¹WWVMPO deadline allows staff time to arrange for public comment notifications, prepare submittal documentation, and conduct a two-week public comment period. Full amendments need approval by resolution from the MPO Policy Board.

Administrative/technical adjustments do not require public review or presentation to the TAC or Policy Board. Oregon agencies should allow MPO staff up to **one week** to process these types of adjustments and submit it to the Region 5 STIP Coordinator.

ODOT processes STIP amendments at any time; there are no established submission deadlines. However, for full amendments the MPO follows a pre-determined process for managing changes to the TIP per the above schedule. Following Policy Board adoption of a resolution, the full amendment will be submitted to the Region 5 STIP Coordinator.
